Property Description

Boutique gated community of 25 exclusive apartments designed for comfortable living. These spacious apartments are all facing South and were designed by Schiemann Weyers Architects (Rotterdam) and OCWA Architects (Marbella), this complex guarantees both quality and sophistication.

The complex offers a variety of spacious two-level apartments with private terraces and rooftop solariums. Stylish interiors are ready for you to move right in, featuring heated floors, energy and water-saving fixtures, and a climate-control system connected to the weather station.

Instead of hallways, walking paths connect the units making it feel more like a town than an apartment complex. Among the amenities this amazing complex offers we find a spa, fitness center and community pool. Underground parking garage, storage rooms and 24h security.

Conveniently located in Estepona's sought-after New Golden Mile- known for sunny skies, golden sand beaches and crystal-clear waters. Construction in first phase. Expected completion in 2025.
